Emne: EAA 2021 Kiel virtual - scientific programme important

Dear Torgrim Guttormsen

we would like to provide you with practicalities for the upcoming EAA 2021 Kiel Virtual Annual Meeting.

The session #111. Preserving Transformative ‘Palimpsests’: The Role of Digital Heritage and Participative Approaches in Current Urban Archaeology you organise as main organiser is scheduled for 7 Sep, 9:00 - 11:00 CEST.

We have decided to use again the **Hopin software** which was successfully used during the last year's Virtual Annual Meeting and has been further developed since then. On top of enjoying the scientific programme it will also allow you to interact with exhibitors at the virtual European Archaeology Fair, and network with your fellow colleagues. Please check www.e-a-a.org/ea2021/scientificprogramme for detailed **guidelines** and www.e-a-a.org/ea2021/software for **software requirements**.

Please note that your session is not going to be recorded. If you wish to change that, please let us know as soon as possible.

You can find detailed **programme of sessions**, as well as the **Abstract Book** at www.e-a-a.org/ea2021/scientificprogramme, or you can search the repository at www.e-a-a.org/ea2021/repository. The Programme Book will be available in August.

Please stay in **close contact with the presenters** in your session. Some of your presenters may wish to pre-record their presentation (e.g. in case they cannot ensure stable internet connection), in which case they will need to send it to you / share the link with you. In case there is a poster presentation in your session, its author is asked to provide the poster to the EAA Secretariat or upload it to the submission system before 15 August in order to relate it to the session in Hopin virtual room. Authors of posters can also present it shortly during the session - please discuss this individually.

Presenters and session organisers will be able to get familiar with the Hopin software within a test environment in end August / early September - we will provide you with more information about the testing in mid-August.

In case you have any questions or require assistance, please contact us at helpdesk@e-a-a.org.

Best wishes,
Your EAA Team
